Nine in ten Canadians have at least one risk factor for heart disease and stroke. It is an urgent concern, while advances in treatment have significantly reduced the number of deaths, more than 66,000 Canadians still die from heart disease or stroke. The program will inform and educate readers about cardiovascular disease and ways to prevent it. Topics will cover subjects such as these and more -

- Managing heart disease – what are the some of the prescription & over the counter drugs that help make a difference?
- Health innovation – We explore new technologies, tools & treatment options
- Research – what new research challenges lies ahead
