The gastrointestinal tract does more than simply digest food – it contributes to many body systems and functions, making its health crucial for our overall well-being. This special feature explores the impact of gastrointestinal conditions on the lives of Canadians against the backdrop of the coronavirus pandemic.

Proposed topic highlights:

OUTLOOK – From diagnosis to lifestyle and therapy options, what can Canadians expect?

IMPACT & ADVOCACY – Numbers and trends in gastrointestinal disease and where to turn for support.

RESEARCH – New findings and how they affect quality of life.

PANDEMIC RESPONSE – What COVID-19 means for patients with autoimmune conditions.
