

GREAT TASTE OF ONTARIO

At the Culinary Tourism Alliance, we believe food and drink are the great connectors. Whatever your passion, culinary tourism has a way of connecting you with the place you're in - whether that's abroad or at home.

Amidst all the chaos of the last two years, there emerged a silver lining. We believe there is an opportunity during recovery to strengthen Ontario's visitor economy - to deepen the connections between urban and rural communities while enhancing the tourism and agriculture supply chains. Culinary tourism connects us all.

That's why we've partnered with The Globe and Mail on The Great Taste of Ontario. We want readers to fall in love with Ontario all over again. Together, we're encouraging Ontarians to rediscover this big, BIG province. Our stories encourage hyper-local exploration and help people navigate this new normal. We're showcasing and celebrating the very best of our diverse and delicious communities, while reconnecting Ontario with the people and places that make our food and drink unique.

Won't you join us?

GREAT TASTE OF ONTARIO: DECEMBER 10TH EDITION

This December, we're going to hit the shop local message home on more time for folks across the province. Building on our incredibly strong first five issues of Great Taste of Ontario, the Culinary Tourism Alliance and The Globe and Mail are producing a package of must read food tourism content timed to the holidays to keep local experiences and products top of mind. Capitalizing on the growing desire among Ontarians to explore their province and support businesses in their communities, we'll be sharing stories of foodie friendly fun, as well as top picks for holiday shopping. This feature is the perfect way to stay top of mind among those seeking to explore the province during the holidays and support local businesses while they're at it.

**Globe Content Studio reserves the right to make all final editorial decisions on article topics and content mentions. Submitting a pitch idea does not guarantee that the concept will be used in the final product.*
