Technology is transforming how we live, work, play and think. It also has a growing impact on education, with schools turning to online tools and new learning models to equip today's learners with the skills to thrive in tomorrow's world. This special feature explores how educational institutions are working to optimize learning, maximize impact from technology and foster curiosity and innovation for desired outcomes.

Proposed topic highlights:

VIRTUAL ATTENDANCE – Delivering educational content where and when it is needed.

DIGITAL TOOLS – Innovation and tools enhancing student engagement.

STUDENT WELL-BEING – Resources and support for challenging times.

FUTURE-READY – Enabling success for graduates in a changing work environment.
