Research and innovation play important roles in tackling the most pressing issues of our time, including food security, climate change and addressing health, social and economic inequities. This special feature – produced in collaboration with leading experts – will highlight examples of excellence in research and innovation as well as the partnerships, organizations, initiatives and insights that are making a difference in communities in Canada and beyond.

Proposed topic highlights:

LEADERSHIP – Taking Canada's research and innovation ecosystem to the next level.

PARTNERSHIPS – Working together across disciplines and institutions.

ACCELERATING IMPACT – Bringing solutions from idea to impact.

FACILITIES & TRAINING – State-of-the-art infrastructure for research and training next-generation leaders.

OUTLOOK – The findings, solutions and insights that will help to shape our collective future.
