INVESTMENT: SPECIAL NATIONAL FEATURE/CONTRACT RATES APPLY

Canadian agriculture and food production have changed significantly over the past few decades, with research, innovation and technology adoption driving a transformation with the goal to bolster food security on a local, national and global level. This special feature will look at the trends, organizations and practices that are shaping the future of farming.

Proposed topic highlights:

- IMPACT** – Canadian agriculture contributing to food security at home and abroad.
- STRATEGIES** – Improving outcomes for farmers and supply chains.
- SUSTAINABILITY** – Mitigating climate impacts and advancing solutions.
- TECHNOLOGY & INNOVATION** – New technology and improved processes shaping agriculture and food production.
