Six million Canadians live with arthritis, a category of over 100 diseases that can affect people of all ages, races and sexes. Living with arthritis can pose a serious hindrance to every day life, as it causes pain in the joints and other tissues. This special feature will highlight the research and innovation in this space to improve the lives of those afflicted with this disease.

Proposed topic highlights:

RESEARCH — groundbreaking studies to improve care

INNOVATION — how new findings are helping shape the future of those living with arthritis

PREVENTION — tips to mitigate and prevent arthritis

CARE — early diagnosis & preserving quality of life
